### Grouping and ordering evidence search results on KnowledgeShare

The latest update focused on functionality to allow more autonomy when grouping and ordering results in the evidence search report.

Replacing result types, the new *sections* provide headers for search results. The default sections are:

Sections can be edited, renamed, moved, deleted and new ones added by using the **Edit Sections** button. Sections without any results will not be listed in the search report.

Within a section, results can be ordered by: title, publisher, publication year and author.

Results can be moved between sections by selecting and using the **Move Selected Results,** or by manually dragging and dropping.

For more details on all of the above, see sections 4.3.1.1 - 4.3.1.5 and 4.3.10 - 4.3.11 in the KS Handbook - Evidence.

# KnowledgeShare

## Category Q&A

Physical health issues increase the risk of mental health problems, and vice versa. The main tasks for mental health practitioners in this respect are identification and treatment of any physical illness underlying a mental health problem, and monitoring for adverse physical effects of psychiatric treatment. How do I set up a user profile to reflect this?

**Physical Health in Mental Health Service Users** is available under **Mental Disorders**. This encompasses general physical health assessment and monitoring for people with a mental health diagnosis. However the inclusion of specific physical conditions alongside this may also be appropriate, depending upon the user's role and depth of interest.

⊟ Mental and Neurodevelopmental Disorders

⊟ Mental Disorders

**Physical Health in Mental Health Service Users**
*Include specific conditions where relevant.*

## Au Revoir Elaine

After 10 years, it's time to wish you all au revoir, but not goodbye. I'm moving on to pastures new at HEE, but will still be in the NHS library world, so will hopefully bump into many of you at events or training in the future. I've very fond memories of the on-site training and have really enjoyed meeting so many fellow librarians in person. I'm sad to no longer be supporting you with KnowledgeShare, but I'm going to leave you in the very safe hands of Rachel, Clare and Ceri.

## Forthcoming training and events

### Evidence Search

This online demonstration will help you manage evidence searching with KnowledgeShare.

**Thursday 22 September 2022, 2pm-4pm**
*(Teams)*

### Skills

This online demonstration will help you manage information skills teaching, including either ad hoc teaching or scheduled sessions.

**Tuesday 27 September 2022, 2.00pm-3.30pm**
*(Teams)*

### Adding local resources

This online demonstration will show you how to add local events, guidelines and books to your Members' updates.

**Monday 12 September 2022, 2.00pm-3.30pm**
(*Teams*)

uhsussex.knowledgeshare@nhs.net to book.

"KnowledgeShare is convenient and requires very little effort."
