Inpatient Care and Theatre Coordination Solution

FDP Product Privacy Notice

Name of Product	Inpatient Care Coordination Solution (CCS)
Broad Description of Product	NHS Trusts use the information in this Product to support the Trust to improve their wait-list times and provide you with the best care within the right timeframe in relation to the procedure or treatment you are being provided by the hospital. The relevant healthcare information used in this system is collected within the Trust and utilised to find the actions that the Trust can take to ensure that your procedure or treatment can be scheduled and carried out smoothly. Only healthcare professionals and right support staff will have access to your information to provide you with care.
Use Case	Elective Care
Controllers who use this Product	The following NHS Trusts are using this Product: • University Hospitals Sussex NHS Foundation Trust
The purpose for processing your personal data	The Inpatient Care Coordination Solution processes personal data including health data to support the better coordination of planned treatment, which we call elective care. The aim is to improve the delivery of planned treatment through better use of the information that the NHS Trust ("Trust") holds, making sure the data is valid and correct, and that the Trust can use the information to improve on the waiting times for elective care in the wake of the COVID-19 pandemic. The inpatient function allows healthcare professionals and right support staff to view your health data in relation to your planned stay in hospital in one location and in near to real-time, with all required information to support your inpatient care and in turn aids theatre usage. This means that your planned stay in hospital happens promptly.
Type of Data Processed & categories of data	Personal Data Personal Data which is: • Directly Identifiable Data will be processed for the purposes above about patients and staff.

Data that is processed by this Product may include about an individual's:

- Name
- Address including postcode
- Date of birth
- Gender
- Biological sex
- NHS number and/or hospital record number
- Telephone number(s) mobile and home
- Email address
- Health information, including information about your symptoms, medical conditions, diagnosis and, treatment
- Race or Ethnicity

For staff data:

- Name
- Email address
- Role / Profession
- Planned Absence Information

Legal grounds for processing personal data in FPD and sharing it (if applicable)

Processing personal data in FDP

The processing of personal data by the NHS Trust for the purposes shown above is to provide you with individual care.

This is permitted under the following legal grounds in UK GDPR:

UK GDPR

Public Task - Article 6(1)(e) '...necessary for the performance of a task carried out in the public interest or in the exercise of official authority...'.

Health Care - Article 9(2)(h) 'necessary for the purposes of preventative or occupational medicine for the assessment of the working capacity of the employee, medical diagnosis, the provision of health or social care or treatment or the management of health or social care systems and services..." and under Paragraph 2 of Part 1 of the Data Protection Act 2018

Confidential Data

The Personal Data processed for the purposes above is also Confidential Data.

As the NHS Trust are processing your Confidential Data to provide you with individual care, they are relying on your implied consent.

your Personal Data on behalf of the Controller Who your data is shared with Staff Health care professionals who are providing direct care and support staff who need to administer your care journey.
