CAN YOU SOLVE THESE PHARMACY MATHS QUESTIONS?

Mickey Mouse is poorly with a cough, and his doctor has prescribed him with some medication to make him better. Look at his prescription below and answer these questions!

1. How many capsules of amoxicillin does Mickey need to complete the 5 day course?
2. How many paracetamol caplets can Mickey take in one day?
3. Mickey has been given 112 paracetamol caplets. If he takes two caplets four times a day, how many days will 112 caplets last?
4. Mickey takes 2 x 500mg (milligrams) caplets per dose. What is the total amount of milligrams in one dose?
